📁 PROJECTS

**Web Phishing Detection, Technologies: HTML
| CSS | JavaScript | Python**

Utilizing advanced machine learning algorithms to detect and prevent web phishing attempts, safeguarding users from fraudulent websites and protecting sensitive information.

**E-Commerce Website,
Technologies: HTML | CSS | JavaScript**

- Designed and developed an engaging e-commerce website using HTML, CSS, and JavaScript, exclusively focused on sneakers.
- The website showcases a variety of stylish sneakers, allowing users to explore and purchase their favorite footwear.

**Real – Estate Website,
Technologies: ReactJS | CSS**

- I designed and developed Prime Palaces, a dynamic and user-friendly real estate website using cutting-edge technologies such as ReactJS and CSS.
- The platform seamlessly integrates an intuitive user interface, ensuring a smooth and engaging experience for visitors.
